In the light of Jesus we love together, hope together and learn together.

08.09.20

Dear parents/guardians,

As you may be aware, there has been a confirmed case of COVID-19 in our Y2 class resulting in the bubble being closed down until Friday 18th September.

Only the pupils and staff in that bubble need to self-isolate for the next 14 days, all other pupils, including sibling of Y2 pupils should come to school as normal.

If your child is displaying any COVID-19 symptoms including stomach bug and flu -like symptoms you **must** take them to be tested. Where children test positive school must be informed immediately so that we can take appropriate action. If the tests results are negative, your child can return to school but the class teacher will need to see evidence that the test was negative (this will be either an email or text sent from the testing service).

These procedures have been put in place to protect all our pupils and staff and must be adhered to for the safety of everyone.

Yours sincerely

Mrs. C. Speakman
